

■ VEHICLE LIFE

COMPLETE COMMAND HANDBOOK

Professional reference guide for gameplay, economy, moderation, setup and UI commands

■ Prefix

Most message commands use ?

■ UI

Slash commands use /

■■ Permissions

Some commands require staff access

Source note

This handbook was compiled from the uploaded Vehicle Life bot source. Command behavior can depend on Discord permissions, server configuration, database state, and the exact arguments supplied. Commands that were detected in the source but whose full behavior is configuration-dependent are labeled accordingly.

■ Quick Navigation

■ Core Vehicle & Profile	15 documented command entries
■ Racing & Competition	8 documented command entries
■ Economy & Trading	9 documented command entries
■ Missions, Events & Progression	7 documented command entries
■■ Server Setup & Channel Shortcuts	9 documented command entries
■ Moderation & Safety	9 documented command entries
■■ Administration & Utilities	7 documented command entries
■ Slash Commands	6 documented command entries

Inventory: 70 command entries are documented in this handbook, including prefix and slash-command forms. Some entries overlap by feature or interface.

?bets	View available betting information or active bets.	Everyone
?betrace	Use the race betting feature where supported.	Everyone

■ Missions, Events & Progression

?missions	View your missions and available objectives.	Everyone
?events	View active or available server events.	Everyone
?eventjoin <event>	Join an available event.	Everyone
?achievements	View unlocked and locked achievements.	Everyone
?progress [days]	Generate a server progression report; supported range is 2–30 days, default 7.	Manage Server / supported reporting
?leaderboard	View the relevant progression, activity or gameplay leaderboard.	Everyone
?activity	View or use activity-related functionality.	Everyone

■■ Server Setup & Channel Shortcuts

?setas <name>	Save the current text channel under a shortcut name. Requires Manage Server.	Manage Server
?removeas <name>	Remove a saved channel shortcut. Requires Manage Server.	Manage Server
?m <name>	Mention or jump to a saved channel shortcut.	Everyone
?setasprogressviewchannel	Set the current channel for daily progression reports. Requires Manage Server.	Manage Server
?setdailyreportrole @role	Set the role used for daily reports. Requires Manage Server.	Manage Server
?setmainchannel <channel>	Set the main channel for supported bot functionality.	Server setup
?setup	Set the current channel as the Top Garages channel. Slash command; requires Manage Server.	Manage Server
?help	Display help information where supported.	Everyone
?commands	Send the command reference PDF to the requesting member by DM.	Everyone

■ Moderation & Safety

?lock	Lock the current channel so members can read but cannot send messages. Requires suitable channel permissions.	Channel management
?unlock	Unlock the current channel so members can send messages again. Requires suitable channel permissions.	Channel management
?warn @user [reason]	Issue a warning to a member. Requires the bot's configured warning permission.	Moderation permission
?unwarn @user	Remove a warning from a member. Requires the bot's configured warning permission.	Moderation permission
?mute @user <duration>	Timeout a member. Supported duration formats include 60s, 5m, 4h and 2d.	Moderate Members
?unmute @user	Remove a member's timeout.	Moderate Members
?purge <amount>	Bulk-delete messages in the current channel. Requires Manage Messages.	Manage Messages
?giverole @user @role	Add a role to a member. Requires Manage Roles and a manageable role hierarchy.	Manage Roles
?removerole @user @role	Remove a role from a member. Requires Manage Roles and a manageable role hierarchy.	Manage Roles

■ Administration & Utilities

?admin	Access supported administration functionality.	Administrator / configured permission
?adminreset <target>	Use the administrative reset flow for a mentioned member or everyone, where permitted.	Administration
?addinsta	Add/configure an Instagram-related entry where supported.	Configured permission
?removeinsta	Remove an Instagram-related entry where supported.	Configured permission
?insta	View or use the Instagram-related feature.	Everyone / configured permission
?list	Display a supported list of available items or records.	Everyone
?listas	Display saved channel shortcuts or supported shortcut information.	Everyone

■ Slash Commands

/profile	View your Vehicle Life profile.	Everyone

Command	Description	Permissions
/garage	View your complete vehicle collection.	Everyone
/viewgarage user:<member>	View another member's vehicle collection.	Everyone
/topgarages	Refresh/display the Top Garages leaderboard.	Everyone
/setup	Set the current channel as the Top Garages channel.	Manage Server
/giveaway ...	Use the giveaway command and its available subcommands/options.	Configured giveaway permissions

■ ■ Permission & Safety Notes

- Lock/unlock operations require the bot to have the relevant channel permission-management access.
- Warnings, unwarnings, muting, role management and purge commands should be tested with the intended Discord role hierarchy.
- Role commands cannot manage managed roles or roles at/above the bot's highest role.
- Timeout durations use suffixes such as s (seconds), m (minutes), h (hours) and d (days).
- The ?commands feature attempts to send the command PDF to the requesting member by DM; closed DMs can prevent delivery.
- Shortcut names are server-specific. The source reserves the name m for channel shortcuts.
- Slash-command availability depends on successful Discord command registration and the server/global deployment mode.

■ Suggested testing checklist

- Test every command in a private test channel first.
- Verify staff permissions and role hierarchy.
- Check commands with missing, invalid and boundary arguments.
- Confirm database changes before enabling public access.
- Keep this handbook updated whenever commands are added or renamed.

Vehicle Life • Built for organized gameplay and a professional community experience.
